

Publications

1. S. Meljanac, S. Krešić–Jurić, T. Martinić, *Realization of bicovariant differential calculus on the Lie algebra type noncommutative spaces*, J. Math. Phys. **58** (2017), 071701.
2. S. Meljanac, S. Krešić–Jurić, T. Martinić, *The Weyl realizations of Lie algebras, and left–right duality*, J. Math. Phys. **57** (2016), 051704.
3. S. Krešić–Jurić, *Analysis of edge detection in bar code symbols: an overview and open problems*, J. Appl. Math. **2012** (2012), Article ID. 758657.
4. S. Meljanac, S. Krešić–Jurić, R. Štrajn, *Differential algebras on κ -Minkowski space and action of the Lorentz algebra*, Int. J. Mod. Phys. A **27** (10) (2012), 1250057.
5. S. Meljanac, S. Krešić–Jurić, *Differential structure on κ -Minkowski space, and κ -Poincaré algebra*, Int. J. Mod. Phys. A, **26** (20) (2011), 3385–3402.
6. S. Meljanac, S. Krešić–Jurić, *Noncommutative Differential Forms on the kappa–deformed space*, J. Phys. A: Math. Theor. **42** (2009), 365204.
7. S. Meljanac, S. Krešić–Jurić, *Generalized kappa–deformed spaces, star–products, and their realizations*, J. Phys. A: Math. Theor. **41** (2008), 235203.
8. T. Fukuyama, K. Kamimura, S. Krešić–Jurić, S. Meljanac, *Gauge transformations and symmetries of integrable systems*, J. Phys. A: Math. Theor. **40** (2007), 12227–12241.
9. S. Krešić–Jurić, *The Heisenberg magnet equation and the Birkhoff factorization*, Ann. Univ. Ferrara **53** (2007), 299–308.
10. S. Meljanac, S. Krešić–Jurić, M. Stojić, *Covariant realizations of kappa–deformed space*, Eur. Phys. J. C **51** (2007), 229–240.

11. S. Krešić–Jurić, *On the Birkhoff factorization problem for the Heisenberg magnet and nonlinear Schrödinger equations*, J. Math. Phys. **47** (2006), 063501.
12. S. Krešić–Jurić, D. Madej, F. Santosa, *Applications of hidden Markov models in bar code decoding*, Pattern Rec. Lett. **27** (2006), 1665–1672.
13. S. Krešić–Jurić, *Edge detection in bar code signals corrupted by integrated time-varying speckle*, Pattern Rec. **38** (2005), 2483–2493.
14. D. Poljak, S. Krešić–Jurić, *A simplified calculation of transient plane waves in the presence of an imperfectly conducting half-space*, Boundary Elements XXVII, 541–549, WIT Trans. Model. Simul. **39**, WIT Press, Southampton, 2005.
15. E. Marom, S. Krešić–Jurić, *Edge detection in the presence of speckle noise in barcode scanning systems*, Proc. SPIE–The International Society for Optical Engineering **4933** (2003), 382–387.
16. E. Marom, S. Krešić–Jurić, L. Bergstein, *Speckle noise in bar-code scanning systems – power spectral density and SNR*, Appl. Opt. **42** (2) (2003), 161–174.
17. E. Marom, S. Krešić–Jurić, L. Bergstein, *Analysis of speckle noise in bar-code scanning systems*, J. Opt. Soc. Am. A **18** (4) (2001), 888–901.
18. M.R. Adams, S. Krešić–Jurić, *Hamiltonians and zero-curvature equations for integrable partial differential equations*, J. Math. Phys. **42** (1) (2001), 213–224.
19. E. Marom, S. Krešić–Jurić, L. Bergstein, *Speckle revisited – Analysis of speckle noise in bar-code scanning systems*, Proc. SPIE–The International Society for Optical Engineering **4430** (2000), 361–375.
20. S. Krešić–Jurić, *A loop group approach to the C. Neumann problem and Moser-Veselov factorization*, J. Math. Phys. **40** (10) (1999), 5014–5025.
